- If system is set to use dark theme, dark mode option will be enabled

### Fixes/Updates

- None for this release

## Known issues

- If the system under test was running on Windows 10 RS2 (1703), the low battery notification dialog will appear when battery level is low and causes the test to fail.
- Microsoft OneDrive crashes on some systems and interferes with benchmark run
  - Workaround: Uninstall OneDrive before installing benchmark
- OneNote email workload may select UWP version of Outlook which causes the workload to error. Workaround is to set default application to Outlook 2016.
- Microsoft Office application workloads will fail if a pre-existing installation of Office is not completely cleaned out before install. This includes Microsoft Office UWP apps, as well as any OEM installed Office trial copies.
